

12th March 2018

Dear Parents / Caregivers,

You may have noticed a car parked on our school field today that was coned off. It was set up to look as though a family has been living inside it. Your children might come home and talk about it tonight. The Kauri teachers set this up as an authentic learning experience to spark the students' interests into our new inquiry topic, in which we will be looking at how other people live and ways in which we can help.

As part of this topic, we have a visitor from the Auckland City Mission coming to talk to the Kauri Whanau students this week on Friday morning. We would appreciate any donations of canned goods, which we will give to our visitor to contribute to the Auckland City Mission.

We would appreciate these cans being brought to school over the next three days so that we can present them to our visitor on Friday.

Thank you for your support,

Kauri Whanau Teachers
