

Dear Parent or Guardian

Starting in Term 2, your child will have access to MathsBuddy, which is an on-line teaching and learning programme which will assist in the Mathematics education of your child. The discounted cost of this programme is \$20.

The major benefit of MathsBuddy for your child is that there is a "Video Tutorial for Every Maths Concept" in the NZ curriculum, which means that any student can learn at their own pace by:

- rewinding, fast forwarding and repeating the lesson, as needed
- stopping, reflecting, asking questions and absorbing the content in their own time
- being able to revise and catch up on missed work easily, with the whole of the NZ Mathematics curriculum (years 1 – 13) available to them
- having access to help anytime, anywhere and on any device i.e. computer, iPad and other tablets and electronic devices

For you, the benefits include being able to:

- have immediate access to the same information about your child's progress as the teacher
- receive weekly reports on your child's progress
- be fully involved in the Mathematics education and progress of your child
- work closely together with the school and the teacher to ensure your child's success.

In order to receive the benefits of the programme, we are asking parents to pay **\$20**. This will give access to the programme from anywhere, at any time and on any device i.e. computer, iPad and other tablets and electronic devices, until 31st January 2018. Payment can be made through Wrap It Up or the school office.

Thank you

John Macnaughtan
