Dear Parents/ Caregivers

On Monday 3rd September (Week 7) 'Science in a Van' will be visiting our school as part of our Technology and Science Exploration during Term 3 and 4.

Science in a Van is a Science Roadshow that inspires students with a fun and engaging approach to Science. The day includes a whole school experience as well as a science show for both Koru and Kauri Whanau. These will be based on The Material and Physical World - friction and forces; Newton's Laws of Motion and the concept of fair testing.

The cost for each child will be \$5.00 and will be added to each child's Kindo Account.

Thank you
Stephanie Trembath
